Lounge outfit fits in sturdy rayon like this one will give excellent service. The informative label it bears is the best assurance you can have of good wear and cleaning qualities.

War Cost Army 737,714

Tons of Cargo at Sea

WASHINGTON, D. C. — The war department reported that 737,714 ship tons of army cargo were lost at sea during the war as the result of the sinking or damaging of 146 vessels outboard from the United States.

The total included 200,050 tons from the sinking of 31 vessels and the damaging of two others in the Pacific and 537,666 tons through the sinking of 105 vessels and damaging of 10 others in the war against Germany.

These figures, the army emphasized, cover only losses on vessels of American and foreign registry sailing from this country. The army calculated the losses amounted to 62 tons out of each 10,000 tons shipped from this country from December, 1941, to August 1, 1945.

Red Army Stops Mixing Of Men With Officers

MOSCOW.—The Red army, which has permitted every one from privates to generals to mix in army clubs, will host "officers only" signs in the future.

The army newspaper Red Star, announcing the change in policy, said:

"Under present conditions of cultural enlightenment work it is necessary to have sharp differentiation and separation."

Play safe, drive carefully.

U. S. Inventors Still Hold Lead

Yankee Genius Again Proves In War It Is Greatest Force in World.

WASHINGTON.—American inventive genius still is as great a force in the world as ever. In fact, an even greater force. Scientific men are pointing out that this was convincingly demonstrated by the war just brought to a victorious end, says the Chicago Herald American.

The tradition of American fertility in devising machines to make work easier and to produce more and better goods goes back to the very roots of the nation.

Since the days of Benjamin Franklin, the days of the American inventor have been marked by a mechanical boom & never had before. Eli Whitney, Samuel F. B. Morse, Alexander Graham Bell, Thomas A. Edison, the Wright brothers are only a few of the names that rang around the globe.

This nation of inventors brought forth new instruments of both war and peace. The first submarine was a Yankee product, so was the first ironclad warship with a revolving gun turret—the Monitor of Civil War fame—and numerous other weapons originating here blazed new paths in warfare.

Then came World War II, and for a time it looked as if the pain for inventiveness had passed into German hands. But skilled as the Nazis were in contriving means for speedily crushing their neighbors, the tremendous events leading to American triumph on two fronts proved conclusively that Yankee mechanical genius had by no means diminished.

Not only did the ideas for outstanding inventions that resulted in victory originate in American laboratories and workshops, but indicators clearly point to American leadership in the current race to reconstruct war weapons and industries to the uses of peace.

Drastically at the head of the list of new war inventions is, of course, the atomic bomb.

For years, scientists strove to release the vast energy known to be locked in the atom's nucleus. It remained for an American, Dr. Ernest O. Lawrence, 30-year-old physicist at the University of California, to show how to release that force.

Though the atomic bomb sealed the fate of Japan, the Nips were already groggy from American blows. The greatest single mechanical factor in overwhelming both the Nazis and the Japs is, by general consent, radar—radio detection and ranging.

Radar and DDT.

Credit for radar belongs strictly to America and goes back to 1922, when Dr. Albert Hoyt Taylor, chief consultant and co-ordinator for electronics at the naval research laboratory, Washington, D. C., and Leo C. Young, an associate, made some experiments with the use of short waves for communication with airplanes.

They discovered that ships in the Potomac river distorted their radio signals. They were keen enough to recognize that they had come upon an epoch-making discovery — that here was a means by which the U. S. navy could detect enemy warships at considerable distance.

The rest is history. Other nations, following our lead, likewise developed radar instruments, but no country brought the equipment to the peak of perfection arrived at in this country.

Another marvel — the peerless bombight, named for its inventor, Carl L. Norden — convinced all our enemies they had a good deal to learn in the way of war-making from this democracy.

The Norden bombight is so precise that U. S. bombardiers found it possible to spare churches, hospitals and non-military buildings while pulverizing everything else in their immediate neighborhood.

That extraordinarily effective insecticide, DDT, which saved millions of American servicemen from malaria, typhus and other insect-borne diseases, already has been applied to civilian needs.

Britain Had Midget Fleet Ready for Japs

LONDON.—The British army had a fleet of 2,000 "midget ships" ready to start for the Pacific when the Japs quit.

Ranging from small tankers and armored landing craft to launches equipped with water ambulances, they were to have formed the backbone of the army's water transport system.

FARMERS BACKED BY SUPPORT PRICES

Farmers are assured of fair prices for certain crops during the period immediately ahead. In accordance with authorization from Congress, the U. S. Department of Agriculture is to support certain crops at 90 per cent of parity. The parity formula for farm prices is designed to give the farmer the same returns in terms of purchasing power from a bushel of potatoes as he received in the parity base years when farmers were normally prosperous.

Hunting season opened Nov. 20. Wave of violence hits New York with 62 persons killed in 70 days. Troops ordered out to quell riot in Iran. U. S. to investigate loyalty of Korean leaders.

HOW WAR BONDS GROW IN VALUE YEARLY

Yrs.	Increase in Value	Total Value	% of Worth the Yr. Before
1	\$ 5.00	\$ 755	67%
2	10.00	765	1.32
3	15.00	780	1.93
4	20.00	800	2.56
5	25.00	825	2.50
6	30.00	840	2.44
7	35.00	880	4.76
8	40.00	920	4.55
9	45.00	960	4.35
10	50.00	1,000	4.17

IT'S SURPRISING—how War Bonds grow in value each year. If held until maturity they earn 2 1/2% per year and they have a yearly added value. You start with a \$100 Series E Bond. The scale to the left shows how a \$100 Series E Bond grows. The chart shows that the increase in value is greatest in the later years of the bond's life. Note how the rate of interest goes up in the second three years of the bond's life. Study the increase in the \$100 bond. Holders of bonds for a few years, considering the above, would literally be throwing money away to cash them prior to maturity. The New York Stock Exchange in the year 1929 had 150 years of its existence has never recommended other bonds than those of the United States.

"Our dollars in VICTORY BONDS will work wonders for us...!"

"Buying Victory Bonds gives me such a safe feeling. Now we can go ahead and plan the home remodeling we've talked about these last few years..."

"There's the new kitchen... and the water system... we'll pay for them from current income, of course... but Bonds will give us peace of mind to go ahead..."

LET'S ALL DO OUR SHARE!

IF farm income should drop, we could still pay for the improvements. Victory Bonds yield a fine return... and they're just like cash in case of need!"

VICTORY LOAN

Hixburg

Hixburg, Nov. 13.—Rev. J. S. Moore filed his regular appointment at the Baptist Church here. The roll call of the members was taken, also.

E. P. Sears and son, Lester, visited his brother, Herman Sears, in High Point, N. C. over the weekend.

Joel Watkins, of Farmville, attended the funeral of Mrs. Cennas, at Elam on Monday afternoon. He called to see his kin here as he returned home.

W. W. Bristow, of Chicago, arrived in this community last Thursday and is visiting in the home of E. P. Sears.

Mrs. Hix, Mrs. E. P. Sears, Mrs. E. W. Gilliam, Mrs. J. S. Moore, and Mrs. J. S. Moore, Jr. called to see Mrs. J. S. Gilliam in Appomattox last Sunday afternoon.

Mrs. J. R. Marshall celebrated her husband's birthday with a party on Sunday. The invited guests were: Mr. and Mrs. Terry, Mrs. E. W. Gilliam, Jack K. Marshall and his young son, Kenneth.

Mr. and Mrs. N. S. Topping visited Mr. Will Swan Monday P. M. Mr. Swan is not so well.

Miss Lavelette Sears, of Richmond spent the weekend at her home here. Mrs. Robert Sears was a visitor in the same home Sunday.

Tito says recent election doomed monarchy in Yugoslavia.

Concord

Concord, Nov. 17.—Pupils at the Concord High School will have a Thanksgiving holiday beginning on Wednesday afternoon, with school reopening Monday morning.

New concrete steps have been completed at the Fisher Memorial Baptist Church.

Mr. and Mrs. Earl Carson and daughter have returned to Steelton, Pa., after visiting here.

Miss Nannie Lee Perdieu has returned home after a visit with friends in West Virginia.

Mrs. Florene Carson is spending some time in Steelton, Pa.

Rev. and Mrs. Zane Grey Ross of Richmond visited friends here this week.

There will be a community service for Thanksgiving at Bethlehem Methodist Church at 11 A. M. Thursday. The girls' group of Concord High School will sing.

NEGRO FARM NEWS

Mr. Lloyd Forest of Promised Land community has purchased the grand champion prize bull that was awarded on the recent 4-H Club achievement day program. The former owner and outstanding 4-H exhibitor was Nora Watkins, of Appomattox community.

Mr. Forest plans first of all to use this bull as a starter for his future dairy herd, from which he intends to ship milk to Coble Dairy Products. In addition the bull is to be used to serve the community and others wishing to use the stunts; also he plans to exhibit at state and county fairs.

The purebred bull was formerly gotten from Va. State College at a minimum price. The father of this animal was purchased by the college at six weeks of age for \$400.00, the grandfather sire for the Carleton herd was sold at auction for \$4,100.00.

Following the recent achievement day, Mr. B. G. Anderson gave a fine guernsey bull calf to the reserve champion placement, Elmo Marshall, the runner-up for first prize, received this unexpected gift, coming from Mr. Anderson's splendid dairy herd. Elmo plans to use the bull in helping his dad get started in the milk-shipping business.

POSTED SIGNS

WE GIVE THEE THANKS

In the name of the living, and of the dead, And of those unborn — Lord, bless the bread Of brotherhood that now we break In gratitude for Thy sweet sake.

In the name of the living — we thank Thee, Lord, For deliverance from flame and sword; For loved ones spared; for the task well done; For the battle fought — and the victory won.

In the name of the dead — locked deep in sleep Under alien earth — give us strength to keep Untarnished their dear-bought legacy, The brave, bright armor of liberty.

And for those unborn — Lord, we lift a prayer For a wiser world where we all may share A lasting amity with men.

We thank Thee, Lord, for peace. Amen.
